

# Riya Stone Speciality Chemicals

“Either we make the best, or we don’t make it at all.”  
We don’t follow trends — we set them.

Riya Stone Speciality Chemicals stands at the forefront of stone-surface innovation — where advanced chemical engineering meets real-world craftsmanship. We specialize in high-performance formulations for stone coloring, sealing, polishing, restoration, and protection — each crafted to deliver laboratory-grade precision with field-tested reliability. From granite and limestone to marble and sandstone, our solutions enhance natural beauty, improve durability, and simplify application for professionals worldwide.

## Our Mission

To deliver world-class stone-chemical solutions directly to the end user — without dealers, without commissions, and without compromise.

By eliminating middlemen, we ensure:

- Factory-direct quality
- Consistent performance
- Transparent pricing

Empowering stone professionals to achieve superior finishes at lower costs.

## Our Core Strengths

- Dedicated R&D lab for formulation and surface testing
- Deep expertise in mineral science & surface reactivity
- Real-world testing under sunlight, heat, and moisture
- Continuous improvement through applicator feedback

## Proud Innovation — World’s First

At Riya Stone, we don’t just improve what exists — we create what has never existed before.

### Esplendido Limo

World’s No. 1 Limestone Textured-Finish Chemical that dries in 1 minute and delivers permanent gloss and permanent color enhancement.

### Esplendido ScratchOff

World’s only permanent stone scratch-removal system.

## Our Product Range

Granite Color Converters • Limestone Textured Finish Chemicals • Stone Scratch Removers • Stone Sealers • Stone Shiners • Granite Crack Fillers • Epoxy Systems • Stone Color Enhancers • Home & Terrace Waterproofing Chemicals

# Esplendido Black 2.0

## जेटेस्ट ब्लैक ग्रेनाइट कलर कन्वर्टर"

*The Darkest. The Jettest. The Ultimate Black Granite Color Converter.  
Technically Perfect. Visibly Darkest.*

इससे अधिक गहरा और तकनीकी रूप से परिपूर्ण ब्लैक ग्रेनाइट कलर कन्वर्टर बाजार में दूसरा कोई उपलब्ध नहीं है। और यदि कोई उत्पाद इसकी आस-पास की गुणवत्ता का है, तो आप उसे ₹400 या उससे अधिक कीमत पर खरीद रहे हैं। इससे आप यह अनुमान लगा सकते हैं कि अब तक आप डीलरों को कितनी अधिक मार्जिन या कमीशन दे रहे थे।

## Granite Color Converter Esplendido Series

The **Esplendido Granite Color Converter Series** by **Riya Stone Speciality Chemicals** represents a new generation of high-performance stone enhancement technology. Each formulation is scientifically engineered to deliver superior color depth, tonal uniformity, and long-term surface stability across a wide range of natural granite substrates.

Developed with an advanced solvent matrix featuring ultra-low surface tension, Esplendido converters penetrate deep into the micro- and nano-pores of granite, achieving uniform absorption and exceptional depth of tone. The result is a rich, vibrant, and high-definition surface appearance with professional-grade gloss and clarity.

**Available in NINE** precision-formulated shades — **Black 2.O, Classic Brown, Dark Brown, Orange, Orange Red, Premium Red, Reddish Brown, Royal Blue, and Golden Yellow** — each variant is designed for seamless application, controlled drying, and a smooth, streak-free finish. Ideal for industrial finishing lines, architectural stone processing, and high-end decorative applications, Esplendido ensures consistent performance and an unmistakable premium look.

### Key Technical Advantages

- **Highest Color Strength** – Advanced pigment system delivers deep saturation and high optical density.
- **Ultra-Low Surface Tension** – Ensures superior nano-pore penetration for uniform tone and long-lasting depth.
- **Excellent Flow & Levelling** – Forms a flawless, streak-free film with mirror-like surface uniformity.
- **High Temperature Stability** – Maintains gloss, tone, and consistency even under high polishing heat.
- **100% Epoxy Compatible** – Fully compatible with all epoxy resin systems, providing a continuous and defect-free bond.
- **UV Resistant Formula** – Offers outstanding outdoor durability and resistance to color fading or yellowing.
- **Balanced Drying & Non-Tacky Film** – Optimized solvent balance ensures smooth application, uniform film formation, and efficient drying without surface stickiness.

Reddish Brown	25 KG	₹ 340
Navy Blue	25 KG/ 5KG	₹ 350
Golden Yellow	25 KG/ 5KG	₹ 360

# Espléndido Limo

## Creates Limestone Finishes That Sells Itself

इस revolutionary chemical ने customers को सच में majboor कर दिया है कि वे marble, granite और tiles की जगह Indian limestone (जैसे Kota Stone, Kadappa Stone, Tandur Stone) को flooring के लिए choose करें। इससे limestone fabricators की sales और profit कई गुना बढ़ गए हैं, और stone की market value भी काफी increase हो गई है।

**Espléndido Limo** is the world's only chemical designed specifically for textured limestone finishes that delivers **Permanent Gloss & Permanent Color Enhancement**. Its magic lies in speed and simplicity — it dries in just one minute, making daily production incredibly efficient.

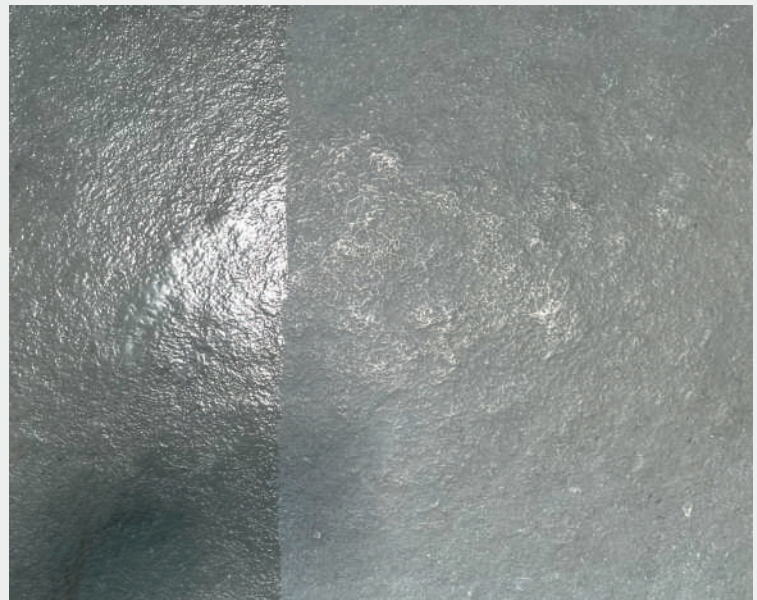

But the best part? It preserves the natural feel of the stone. The surface remains as authentic as ever — only now, it looks richer, more beautiful, and naturally glossy.

One minute. One touch. Infinite brilliance — that's Espléndido Limo

Factory Price : ₹ 780/ Litre + GST

- 1 Minute Dry
- Permanent Gloss
- Permanent Color Enhancement
- No Change In Surface Feel or Texture

### Recommended Applications

**Stones:** Kota | Tandur | Kadappa | Kurnool | Jaisalmer | Shahabad | Nimbahera

**Finishes:** Leather | River Washed | Honed | Bush Hammered | Sandblasted | Shortblasted | Antique | Rough

# Esplendido Kota ScratchOFF

## Permanent Surface Scratch Remover

*Restores Perfection. Removes Scratches Forever.*

यह दुनिया का एकमात्र केमिकल है जो कोटा स्टोन की हर तरह की सतह — जैसे टाइल्स, मिरर पॉलिश, हाई पॉलिश, नॉर्मल पॉलिश और टेक्सचर्ड फिनिश — से खरोंचों को हमेशा के लिए हटाता है।

**Esplendido™ Kota ScratchOff** is a technically advanced, solvent-based nano-formulation developed to permanently remove abrasive and mechanical scratches from all kinds of Kota stone surfaces, including Tiles, Mirror Polish, High Polish, Normal Polish, and Textured Finishes. The product chemically integrates into the stone's matrix, rectifying optical distortions caused by grinding or wear. Once cured, the treatment forms an invisible, molecularly bonded layer that becomes part of the stone structure — ensuring permanent correction that resists rain, sunlight, temperature changes, mopping, and water exposure. This unique chemistry ensures that after full curing, scratches never reappear, even under continuous domestic or outdoor use.

Factory Price : ₹ 1250/ Litre + GST

# Esplendido HydroVeil

## Advanced Water-Based Invisible Sealer

*Engineered for Natural Stone Perfection — Protection Without Alteration  
Invisible. Intelligent. Enduring.*

**Esplendido HydroVeil™** is a premium, water-thinnable protective treatment engineered for high-value natural and engineered stones, Granite, Marble, Limestone, Sandstone, Travertine, Concrete, Brickwork, Terrazzo, Unglazed Ceramic Tiles, and mineral façades. It penetrates deeply into the substrate, creating a breathable, invisible barrier that resists water, oil, grease, and environmental staining — while maintaining the natural tone and texture of the surface. The treatment offers long-term

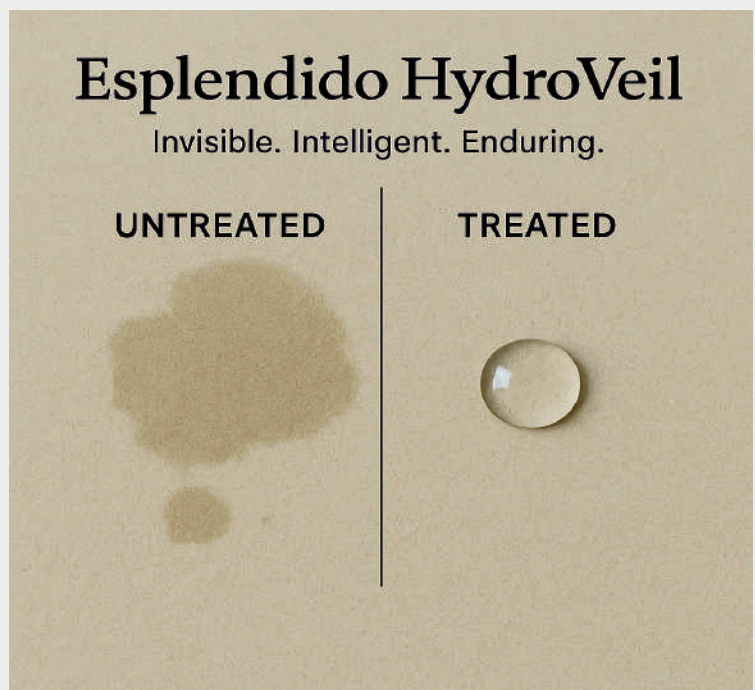

UV stability, alkali resistance, and non-yellowing performance, ensuring years of durable protection in both interior and exterior applications.

Factory Price : ₹ 1800/ Litre + GST

Costing : ₹ 2-5/ Sq. Ft.

“Highly recommended for the world’s most luxurious marbles, premium Indian sandstones, high-value granites, and a complete range of natural stones, tiles, and bricks.”

# Esplendido Wettest 100

Professional-grade, solvent-based stone sealer

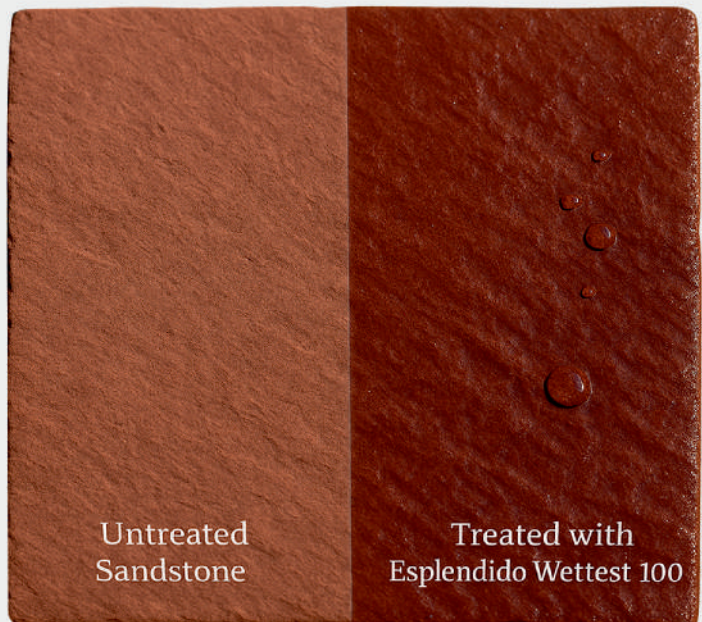

*“World’s Deepest Wet-Look Finish”*

**Esplendido Wettest 100** is a premium professional stone sealer formulated for the deepest color enhancement and unmatched durability. The high-solids solvent formula penetrates deeply into stone pores, intensifying natural color and grain. Unlike topical sealers, Wettest 100 forms an invisible, breathable barrier beneath the surface, so there is no film or coating to maintain. Provides superior stain resistance – water and oil are repelled, protecting the stone from spills, salts, and surface growth.

Factory Price : ₹ 1600/ Litre + GST

- Superior Deep-Color Enhancement
- Repels Water, Oil, and a Wide Range of Stains
- Breathable, Deep-Penetrating Formulation
- Highly Resistant to UV Exposure and Weathering
- Exceptional Long-Lasting Durability
- Compatible with All Types of Stones and Surfaces

# Esplendido LuxGloss

## Cera De Silicona

### Most Advanced Silicon Wax Shiner

**Esplendido LuxGloss** is a next-generation solvent-based silicon wax formulation designed for discerning professionals and luxury spaces. It combines high-purity waxes, advanced silicones, and special additives to enhance and elevate the natural richness of stone surfaces — imparting a deep, wet-look brilliance that lasts.

This ultra-premium polish penetrates micro-pores to enhance surface integrity, forming an invisible protective matrix that resists moisture, etching, and dullness. It's ideal for achieving mirror-like gloss and long-lasting beauty on granite, marble, tiles, quartz, and engineered stones.

Factory Price : ₹ 330/ Litre + GST
